Onesimus Director — Backup Throughput Benchmark

Host: WS-JOERG.intranet.bernau.family   OS: Linux-6.12.74+deb13+1-amd64-x86_64-with-glibc2.41
CPU: AMD Ryzen 9 9950X 16-Core Processor   RAM: 60.4 GB   Arch: x86_64

```
FileSet: /usr/bin, /usr/sbin, /usr/share
Files: 166,733   Directories: 15,091   Total size: 4.03 GB
```

*Test conditions: Both Directors ran sequentially (never parallel) on the same host,
same config, same catalog DB, same FD/SD. No other applications were running during the test.*
