Onesimus Director — Backup Throughput Benchmark

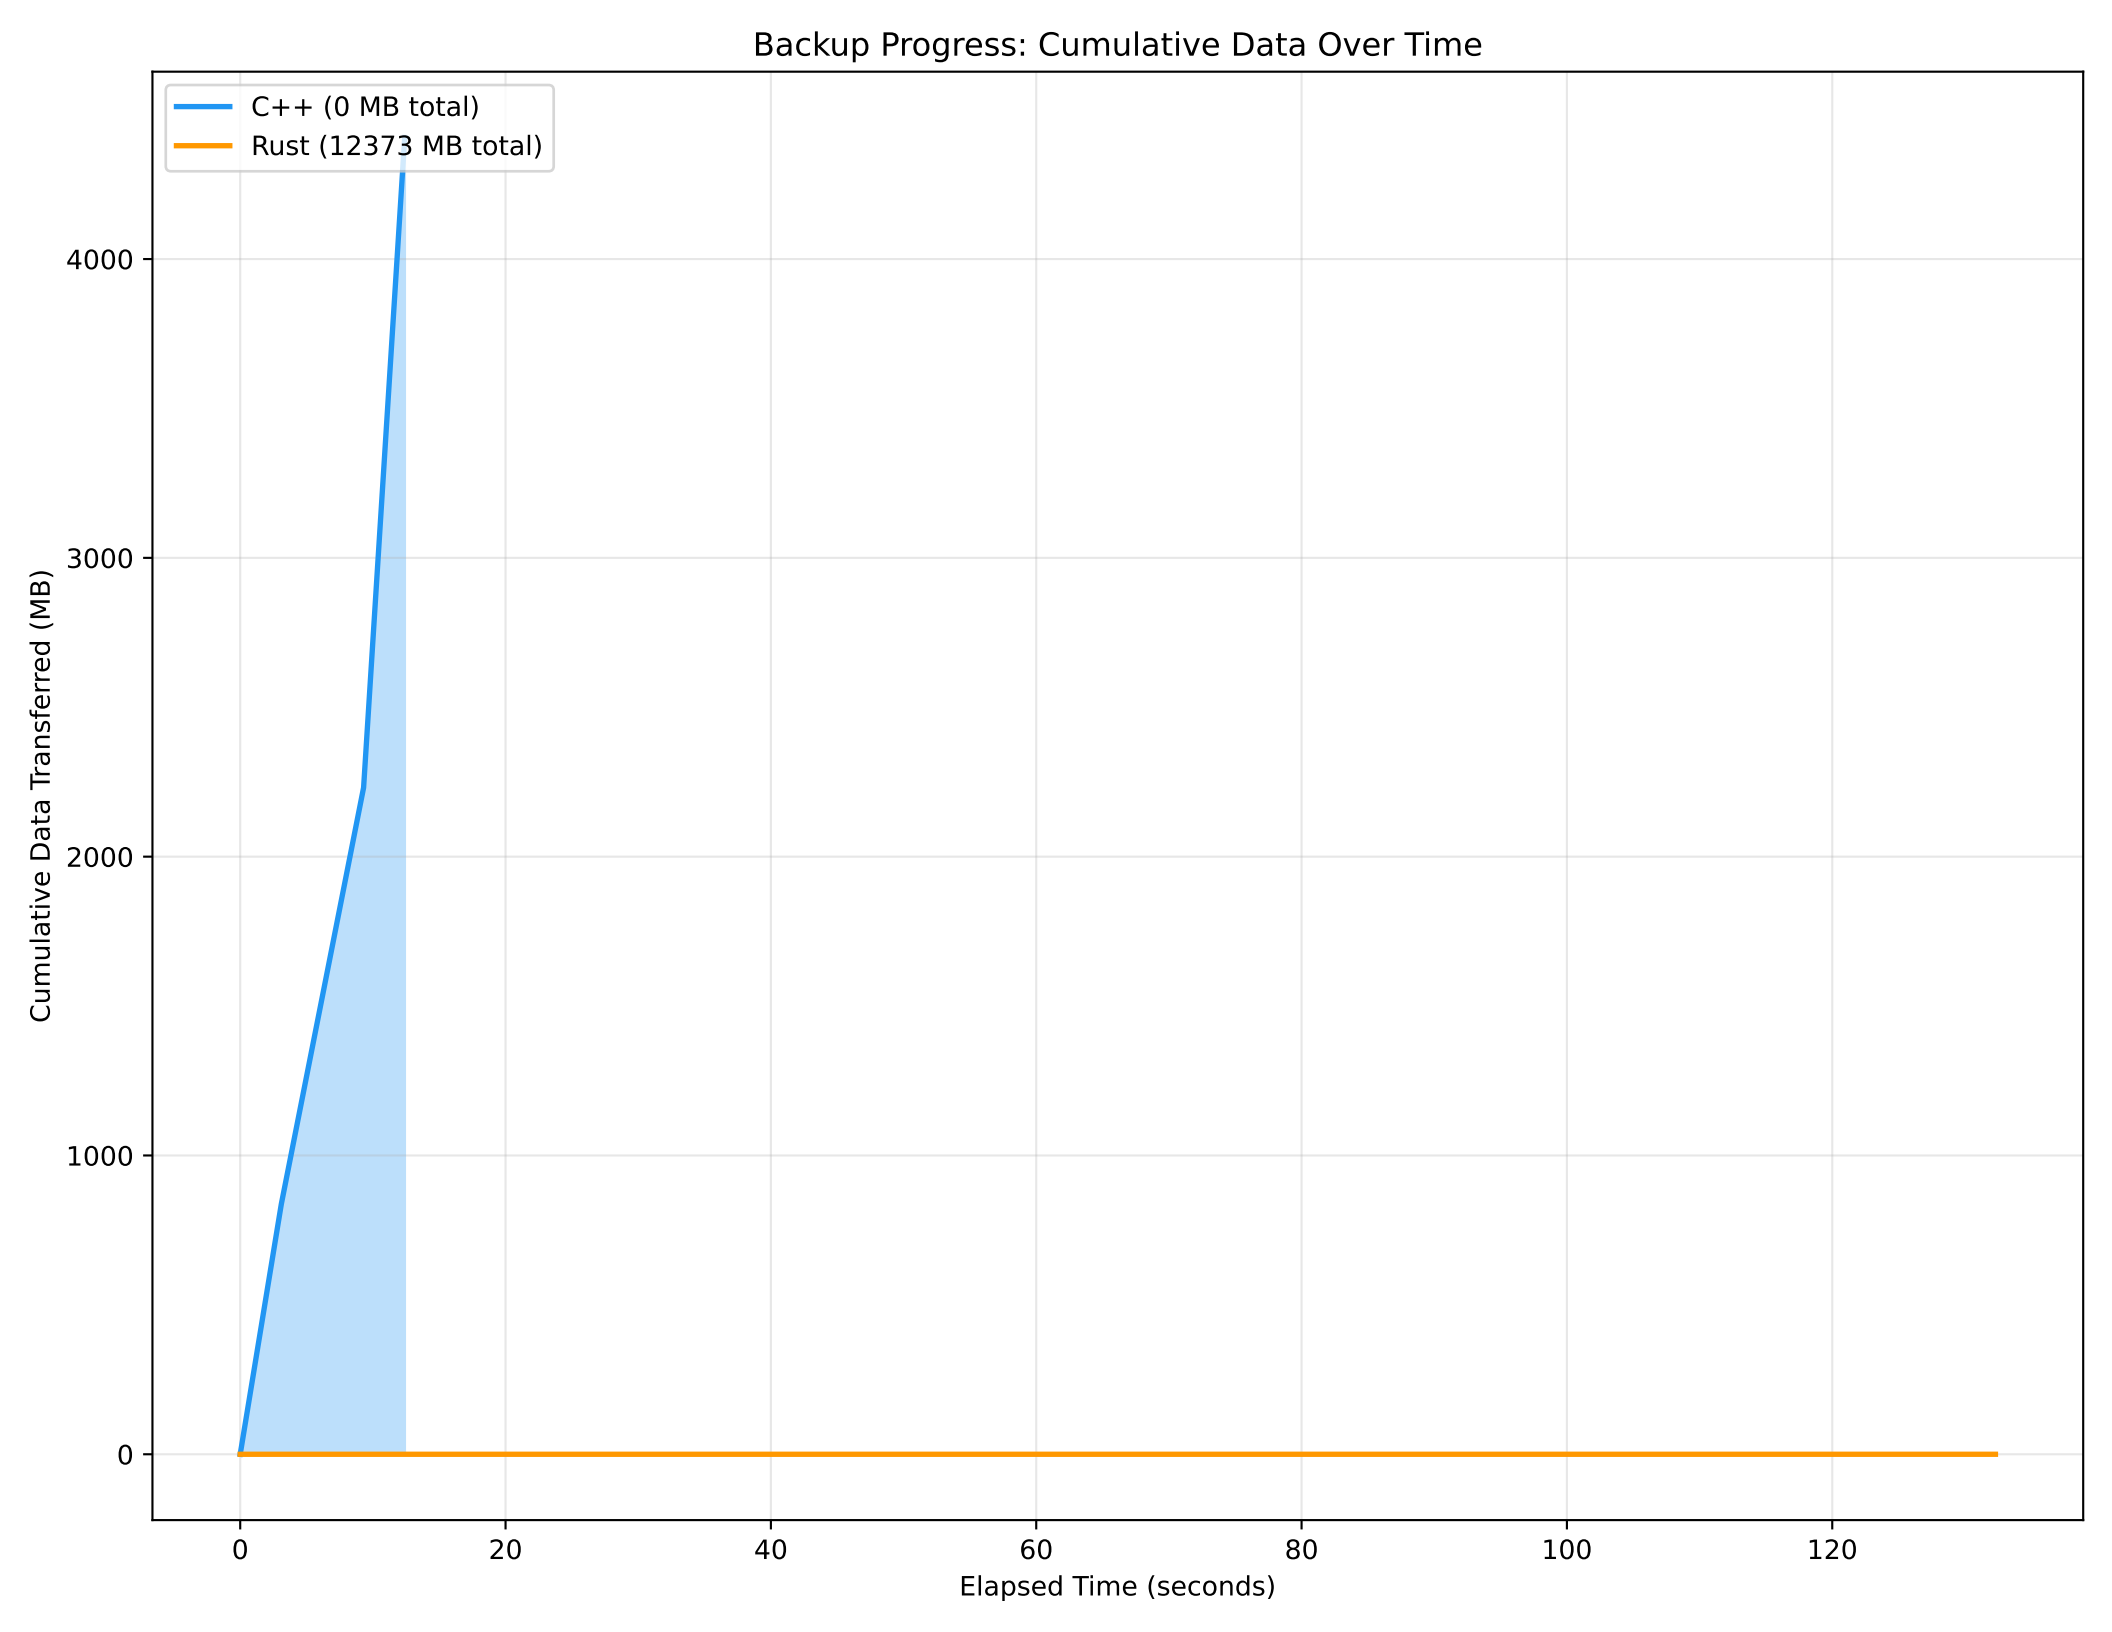

Host: WS-JOERG Platform: debian family OS: Linux-6.12.74+deb13+1-amd64-with-glibc2.41
CPU: AMD Ryzen 9 9950X 16-Core Processor RAM: 60.4 GB Arch: x86_64

FileSet: /usr/bin, /usr/sbin, /usr/share
Files: 166,733 Directories: 15,091 Total size: 4.03 GB

Test conditions: Both Directors ran sequentially (never parallel) on the same host, same config, same catalog DB, same FD/SD. No other applications were running during the test.

	C++ Director	Rust Director	Delta
